Jean Hailes and Women's Health Week

Jean Hailes for Women's Health is working to create an Australia in which gender has no influence on health and wellbeing outcomes.

We want to empower all women to enjoy their best health and wellbeing at every life stage.

Each year we celebrate and support this mission by presenting Jean Hailes Women's Health Week to thousands of workplaces, health organisations, community groups and women across the country.

We work in collaboration to:

- provide health information that women need to make decisions about their health in a way that builds knowledge, skills and confidence
- advocate to change the social, cultural and structural barriers that women face when it comes to their health and wellbeing
- connect organisations and initiatives to facilitate and drive change for women's health.

For more information visit jeanhailes.org.au
